	3:50-4:30p	TABATA	STRENGTH/CARDIO	Nikki
	4:50-5:50p	YOGA II	MIND/BODY	Marie/Becky

GROUP EXERCISE CLASS DESCRIPTIONS

NORTHFIELD AREA FAMILY YMCA

STRENGTH / CARDIO:

BOOT CAMP Superset strength training, fast transitions, with small rests between full sets of multiple separate strength moves. Small cardio warm up to start - stretch to finish off.

BUTTS & GUTS A combination of lower body, abs and lower back exercises to tone, sculpt and strengthen the lower body and core.

CONDITION TOGETHER Condition Together is a 30 minute, total body workout, utilizing loaded movement training.

CORE DE FORCE Total body workout inspired by MMA-style training. Combines movements from boxing, kickboxing, Brazilian jiu-jitsu, Muay Thai, and more! Non-contact, not self defense, no equipment needed. HIIT intervals using skill based cardio training. Trains both sides, and uses body weight training with core-centric movement.

INSANITY™ Get into the best shape of your life! All-out strength and conditioning will make you the best you can be. Dig deep!

JUMP FORCE This exhilarating, fast-paced workout has easy to follow, low-impact moves, including kickboxing, weights, core & stretch. Each move is done for 1 minute and every 5 minutes is a cardio "mock" jump roping (modifications? Yes!) and other cardio elements.

KETTLEBELLS Firm your glutes, abs, arms and legs with just one piece of equipment — the kettlebell.

KICKBOXING A group fitness class that combines boxing techniques with fast-paced cardio. This high-energy workout challenges the beginner and elite athlete alike. Build stamina, improve coordination and flexibility, and burn mega calories as you build lean muscle, reduce stress, and boost confidence!

PIYO Increase lean muscle mass and burn fat faster with this combination of Pilates and yoga moves.

RIP Lift your way to fitness with a strength-training barbell program set to music.

STABILITY BALL TRAINING This class has great benefits in a small amount of time! We'll use balls and hand weights to engage the core while working various muscle groups. Balls are a great tool to help build strength, flexibility and stability, therefore excellent for injury prevention.

STRONG BY ZUMBA Is a High Intensity Interval Training class using more traditional fitness moves for a more athletic, conditioning-style workout. You use your own body weight as resistance to achieve muscle definition. In a STRONG by Zumba™ class, music is the key element.

TABATA Short on time and need a fully body workout? Look no further than Tabata. Tabata is a HIIT workout where the exerciser will do 8 rounds, 20 seconds on 10 second off format for a full body workout.

ZUMBA™ Move and dance with Latin-infused music for a fun, effective cardio and muscle-toning workout.

MIND / BODY:

POWER YOGA Power Yoga links breath and poses while focusing on building strength. It includes intermediate poses and some yoga experience is recommended.

RESTORATIVE FLOW A Combination of gentle flows, restorative poses and foam rolling. This is an excellent class for recovery and self-care.

SLOW FLOW YOGA Slow Flow Yoga A meditative flow that practices slowing down by using a slow steady breath, holding postures, transitioning smoothly, and opening gently and mindfully with the ability to move deeper into one's body and self.

SHOTOKAN KARATE Shotokan Karate is a non-contact Japanese martial art that teaches self-esteem, self-discipline, self-defense and self-confidence. Improve balance and muscle tone, increase flexibility, and stimulate your cardiovascular system in a safe and effective manner. Level II for students that have had 6 months or more of karate training.

SIMPLY STRETCH Increase flexibility with gentle, basic stretches and progressive movements in a relaxing environment.

YIN YOGA Fewer poses held longer for a deeper stretch. A great deeper stretch to lubricate at the joint level in a calming and soothing environment.

YOGA I Relieve stress, improve balance and strengthen your core with yoga, where movements and postures are linked together with the breath featuring basic yoga postures.

YOGA II Building on Yoga I, this class features intermediate poses.

MOVEMENT HEALTH:

MOVE TOGETHER Move Together is a 30 minute program focusing on movement health. This is for anybody looking to improve their overall movement health, to move better, with ease and less restriction and discomfort. This could be someone looking to build their movement confidence and start an exercise program, or even an individual who is already active but needs to spend time reconditioning their body to help prevent pain or injury.

AQUA:

AQUA CARDIO STRENGTH Get your heart rate up with a low-impact workout in the pool.

AQUA PILATES This class integrates the mind/body connection in the water using pilates to align the body, build long lean muscles and develop core strength.

AQUA YOGA Aqua Yoga incorporates deep breathing, stretching and balance poses, assisted by the support of the water. This low-intensity shallow end class can benefit students at all levels, including beginners.

SENIOR AQUA STRETCH AND STRENGTH Each class will start with yoga stretches and breathing. After warm-up, we'll move to strength and cardio exercises. The end of class will return to stretches and calming breathing. All movements are easily adaptable to your level of fitness. The instructor will guide you in how to increase or decrease the intensity of the exercises.
